

## Project Profile

# Stormwater Separation Tank

### Location:

United States, Concrete Sealants, Inc. Manufacturing Facilities,  
Tipp City, Ohio

### Precaster:

Norwalk Concrete Industries

### The Situation:

A 5,000-gallon stormwater treatment oil/water separator is installed to service Concrete Sealants' new 64,000 square foot facility. For this project a sealant that can provide water tightness with a combination of oil and water is required.

### The Solution:

To provide watertight joints, CS-440 and CS-102 were used in sealing the separation tank. These watertight joints allow the system to be effective and keep oil from being deposited into the environment.

### Sealant Application

Oil Separation Tank

### Applicable Industry Standards:

ASTM C-990

### Products Used:

**ConSeal™**

**CS-102**

Butyl Rubber Sealant

**CS-440**

Fuel & Oil Resistant  
Sealant

**CS-1500**

Rapid Cure  
Elastomeric Sealant

*Don't Just Seal It, ConSeal It!*
