## Certificate of Conformance

This is to certify that the material listed below conforms to the following specifications.

**Product:** ConSeal CS-212 External Joint Wrap

**Specifications:** This product meets or exceeds the requirements of ASTM C877 Type III, Type A.

### Chemical Composition and Physical Properties (Butyl Rubber Element):

Ash-inert Matter (ASTM D1278):	30% min. / 50% max.
Volatiles (ASTM C681):	0.1% min. / 3% max.
Specific Gravity @ 77°F (ASTM D1963):	1.15 – 1.50
Peel Strength (ASTM D903):	2.0 lb/in min.
Penetration @ 77°F (ASTM D217):	50 to 100 dmm

### Physical Properties (Plastic Backing Band):

Tensile Strength (ASTM D882):	4,000 psi min.
Elongation at Break (ASTM D882):	100% min.
Tear Resistance (ASTM D624, Die C):	1,500 psi min.
Water Absorption (ASTM D570):	0.01% max.

Sincerely,

Daniel M. Sawhook, P.E.  
Technical Resource Engineer  
Concrete Sealants, Inc.
