Certificate of Conformance

This is to certify that the material listed below conforms to the following specifications.

Product: ConBlock MIC - Antimicrobial Admixture for Cementitious Materials

Performance: Testing of this product demonstrated improved performance as compared to reference samples when tested according to:

- ISO 22196 (modified) - Measurement of Antibacterial Activity on Plastics and Other Non-porous Surfaces
- ASTM C1904 - Determination of the Effects of Biogenic Acidification on Concrete Antimicrobial Additives and/or Concrete Products (Test Methods A & B1)
- ASTM G29 (modified) - Determining Cyanobacterial Resistance of Polymeric Films

Specifications: This product is a U.S. EPA registered (87907-1) antimicrobial product for use in concrete.

Sincerely,

Daniel M. Sawhook, P.E.
